

ABSTRACT

AL-IA-067

MASON-DIXON LINE: MILESTONE NO. ---(146)

Artemas, Pennsylvania vicinity

Public/private

1767 (milestone)

1902 (first set)

Milestone No. ---(146) on Piney Ridge, marks a point on Mason and Dixon's West Line about $\frac{3}{4}$ of a mile west of the preceding monument, No. ---(145) on the west slope of Town Hill. It is an original milestone of 1767, in good condition, unaltered (but with a major break through the stone now held together by an iron band around its top perimeter). It is an embellished oolitic limestone post, quarried and carved in England, stands about $1\frac{1}{2}$ feet above ground, measures about $11\frac{1}{2}$ inches square, and is believed to have been among those excess monuments retrieved and first set in 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary for more clearly preserving the visual integrity of the boundary west of Sideling Hill. On the national and state levels, this milestone is significant primarily as one of 135 original Mason and Dixon monuments in the thematic series of some 248 markers still defining the West Line. Locally, as one of only 8 original monuments still marking the present Allegany/Fulton-Bedford-Somerset county boundary, No. ---(146) is also significant as one of a diminishing number of objects and structures with an identifiable relationship to the colonial and Civil War heritage of these counties.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. ---(146) marks a point on Mason and Dixon's West Line about $\frac{3}{4}$ mile west of the preceding monument, No. ---(145). It is an original milestone of 1767, in good condition, unaltered (but with a major break through the stone held together by an iron band around its ^{top} perimeter), stands about $1\frac{1}{2}$ feet above ground, and was first set at ^{this} new site established ^{on the line in 1902 during} the 1900-03 Resurvey of the Maryland-Pennsylvania boundary.

The area ^{sparsely settled, farmed top of} here is the cleared ^{Piney Ridge}, between Town Hill to the east and Green Ridge to the west. The site is within Election District 1 of Allegany County, MD, and Mann Township of Bedford County, PA; ^{at a point} about 400 feet north of the tenant farm house on the east side of Scofield Road, and about 65 feet east of the former extension of Scofield Road, now blocked with a gate and serving as a realigned ^{private} farm lane. It is in a fenced, grassy field, ^{the south side} against new ^{east-west} barbed wires. It cannot be seen from the road or farm lane, and is protected by the fencing and tenants.

The milestone, as with all original Mason and Dixon West Line monuments, is an oolitic limestone post ^(no longer) with a low pyramidal top, quarried and carved in England, and said to have originally measured about 12 inches square by about 4 feet or more in length, cut to stand about 3 feet high with the base left rough-cut for setting into the ground. The distinguishing embellishments are the vertical fluting with horizontally-fluted margins on all four sides, and the Roman capital letters P on the north side facing Pennsylvania and M on the south side facing Maryland, each V-sunk in the center of a plain shallow circle panel near the top. This milestone, one of only 8 original monuments within the present Allegany/Fulton-Bedford-Somerset part of the West Line, was among those ^{excess monuments} found by the Resurvey (presumably) in the vicinity of Clear Spring, MD, and set at this ^{new} point on the West Line in order to restore the visual integrity of the boundary in this area. It is firmly set, ^{apparently} much as it was in 1902, about $1\frac{1}{2}$ feet high, and measures about $11\frac{1}{2}$ inches square. The letters and circle panels are clear, but the P is chipped; most fluting and margins remain, though ^{is now flat} the top ^{and the} planes and fluting are gone. There are minor chips along ^{all} edges, and a big chip along the southwest edge. It is not known when the ^{flat} iron shrinking band was applied, but it seems to hold ^{cracked} the stone together well. (see Thematic Group NR nomination form for full descriptions of the original

STATEMENT OF SIGNIFICANCE

Milestone No. ---(146) is significant on the national and state levels primarily as one of 135 original Mason and Dixon monuments in the thematic group series of some 248 markers still defining their 230.228-mile West Line, the boundary later known as the Mason-Dixon Line, famous for its historical impact and innovative survey methods. The area was preliminarily surveyed in 1766, but the site not permanently marked with an original¹⁷⁶⁷ milestone until 1902, during the course of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. Locally, as one of only 8 original monuments (of 37 markers) along the present Allegany/Fulton-Bedford-Somerset county boundary, No. ---(146) is also significant as one of a diminishing number of objects and structures with a visually identifiable relationship to the colonial and Civil War heritage of these counties.
